

## RECOMBINANT COLLAGEN ULTRA-WHITENING DIAMOND CREAM

Ultra-whitening diamond cream is awakening your skin's authentic radiance!

Recombinant Human Type III Collagen strengthens skin's elasticity, maintaining plumpness and firmness for optimized light reflection that delivers a visibly brighter, more radiant complexion.

3D Diamond Brightening and Whitening System: Block·Antioxidant·Whiten

Oryza Sativa Germ Oil + Tocopheryl Acetate: A natural antioxidant to eliminate dullness.

Ceramide NP/AP/EOP + Cholesterol: Reduces hyperpigmentation, and creates luminous complexion.

Sodium Hyaluronate + Squalane: Enhance light refraction for "diamond-lit luminosity."

Silica-Lock Brightening and Whitening Technology

Dimethicone Crosspolymer: Reflect visible light for immediate soft-focus diamond effects.

Sodium Carboxymethyl  $\beta$ -Glucan: Long-lasting brightness and white.

With long-term use, it helps restore a diamond-like, healthy glow to the skin.

### Package:

1 box\*1.67 oz. / 50g

### Shelf life:

3 Years

### Indications:

- Stubborn spots/post-acne marks
- Dull, fatigued skin
- Sensitive skin
- prone to pigmentation
- Seeking translucent, dewy radiance

## Diamond Cream · Crystal Radiance —Illuminating Technology for Diamond-Like Skin Radiance

### Effects

Day: Fights oxidative stress, brightens complexion and gets white and shiny.

Night: Repairs the skin barrier and accelerates the removal of dead skin cells for natural diamond-like radiance.

### Instructions

Take a pearl-sized amount and dot it on five points: forehead, both cheeks, nose tip, and chin. Gently blend outward from the center using fingertips. Lightly pat until fully absorbed to form a hydrating barrier.
